May 2010 FISHWAY INSPECTION SUMMARY

Fishway Inspections were conducted at all thirteen Columbia and Snake River Dams fitted with adult fish passage structures over May of 2010.

Overall, few problems were encountered and most fishways appeared to be in satisfactory or better operation. The few problems encountered are listed below.

Bonneville Dam (May 14, 2010): Slightly below criteria at Bradford Weir and Weir #67 (Washington Shore), both 0.9 ft.

John Day Dam (May 28, 2010): Slightly below criteria at South Weir (0.8 ft) and North Shore Weir (0.9 ft).

Lower Monumental Dam (May 11, 2010): Slightly low head differentials at SSE 1 and 2.

Little Goose Dam (May 24, 2010): Slightly low head differentials at NSE 1 and 2.

Lower Granite (May 26, 2010): Slightly low weir depth (0.9 ft).
